

## eBook Information

# Floating Offshore Energy Devices

GREENER

**Eds. Ciarán Mc Goldrick, Meriel Huggard and  
Biswajit Basu**

Proceedings / PDF eBook DRM Free

This new conference series aims at presenting state-of-the-art research in the development of offshore energy machines and devices.

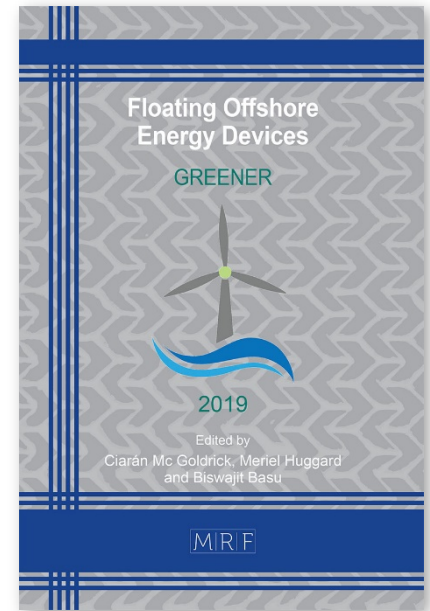

*Keyword:* Oscillating Water Column, Monitoring of Wind Turbines, Coriolis Effect, Internal Ocean Waves, Rapid Distortion Theory, Modelling of Ocean Wave Energy Converters, Pendulum-Type Vibration, Wind Turbine Fault Prediction, Short-Term Wind Power Forecasting, Floating Tidal Energy Conversion, Antarctic Circumpolar Current, Shallow Water Large Scale Modelling

**ISBN 13:** 978-1-64490-173-1, **Publication Date:** 2022 (2/5/2022)**Direct URL:** <https://www.mrforum.com/product/greener>

94 pages, PDF eBook DRM Free, USD 85.00

*Materials Research Proceedings Vol. 20* / **BISAC:** TEC021000 / **BIC/Thema:** TGM**Imprint:** Materials Research Forum LLC, *Publisher's sales rights are Worldwide***Summary:**

This new conference series aims at presenting state-of-the-art research in the development of offshore energy machines and devices. Topics covered include: Present and future offshore wind and wave devices; innovations in modelling, design, control, operation and testing of offshore energy machines, and the impact of these devices on the marine environment.

## Print Book Information

# Floating Offshore Energy Devices

GREENER

**Eds. Ciarán Mc Goldrick, Meriel Huggard and  
Biswajit Basu**

Proceedings / color print, paperback

This new conference series aims at presenting state-of-the-art research in the development of offshore energy machines and devices.

*Keyword:* Oscillating Water Column, Monitoring of Wind Turbines, Coriolis Effect, Internal Ocean Waves, Rapid Distortion Theory, Modelling of Ocean Wave Energy Converters, Pendulum-Type Vibration, Wind Turbine Fault Prediction, Short-Term Wind Power Forecasting, Floating Tidal Energy Conversion, Antarctic Circumpolar Current, Shallow Water Large Scale Modelling

**ISBN 13:** 978-1-64490-172-4, **Publication Date:** 2022 (2/5/2022)
