

eBook Information

Multifunctional Concrete Technology

Feng Naiqian, Lu Jin Ping, Peng Gai-Fei

Monograph / PDF eBook DRM Free

The book reviews production and applications of high- and ultrahigh strength multifunctional concrete.

Keyword: Multifunctional Concrete, Powder Technology, Water Reducing Technology, Ultra-High Pumping Technology, Coarse and Fine Aggregates, Lightweight Aggregates, Electronic Protection, Superplasticizers, Shrinkage and Cracking, Shrinkage Reducing Agents, Anti-Rust Agents, Steel Bars, Microbead Ultrafine Powder, Natural Zeolite Ultrafine Powder, Slag Ultrafine Powder, Silica Fume, Fly Ash, Performance Testing

ISBN 13: 978-1-64490-199-1, **Publication Date:** 2022 (8/5/2022)

Direct URL: <https://www.mrforum.com/product/multifunctional-concrete-technology>

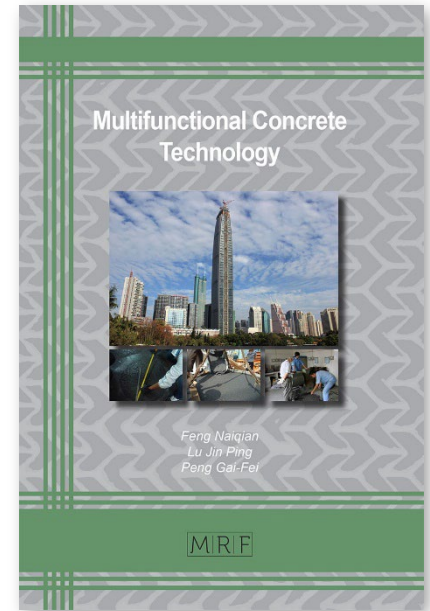

394 pages, PDF eBook DRM Free, USD 125.00

Materials Research Foundations Vol. 127 / **BISAC:** TEC021000 / **BIC/Thema:** TGM

Imprint: Materials Research Forum LLC, *Publisher's sales rights are Worldwide*

Summary:

The book reviews production and applications of high- and ultrahigh strength multifunctional concrete. The use of various coarse and fine aggregates are covered, as well as ultrafine powders, new superplasticizers, anti-rust agents for steel bars and electrochemical protection technology.
